# citadel

Inspired by the architecture of the castle, high-quality marble is used to create a sense of precipitation of years. After the wind and frost, it stands still. The light is softened by the marble, and it is covered with an artistic conception of flowing gold and whirling light and shadow.

**Alabaster Is One-Of-A-Kind  
Kindly Reminder:**

- 1, Natural black, yellow, and cracked patterns;
- 2, After processing, the gaps are exposed;
- 3, Partial repairs to the gaps are made;
- 4, Tiny white spots.

The natural texture, along with the aforementioned conditions, are inevitable characteristics of the stone.
