# Metal Wood Grain Outdoor Furniture

We never go to nature, but back to the nature, we hope our furniture can help realize the harmony between human and nature, and can be 100% eco-friendly. Lotus's new Metal Wood Grain Outdoor Furniture uses heat transfer technology to make the metal outdoor furniture can have a clear and realistic wood grain, and can do ten years without discoloration. As a result, people can enjoy the warmth of solid wood furniture while avoiding the need to cut down trees.

Thanks to our experienced team of engineers, we have significantly improved the UV and water resistance of our furniture. With our quality weaving as well as high-performance fabrics, we are able to provide our end users with a comfortable and welcoming ride, and minimize the difficulty of the daily maintenance of the venue, helping to reduce operating costs, We are confident that these new products will bring a greater boost to your business and ours.
