Design For People
Construct In Mind

Lotus Hospitality Products understands the unique needs of senior living and healthcare environments, our product line is the result of extensive research and collaboration with professionals to make sure that every chair meets the highest standard of safety, within BIFtviA standards.

comfort and functionality

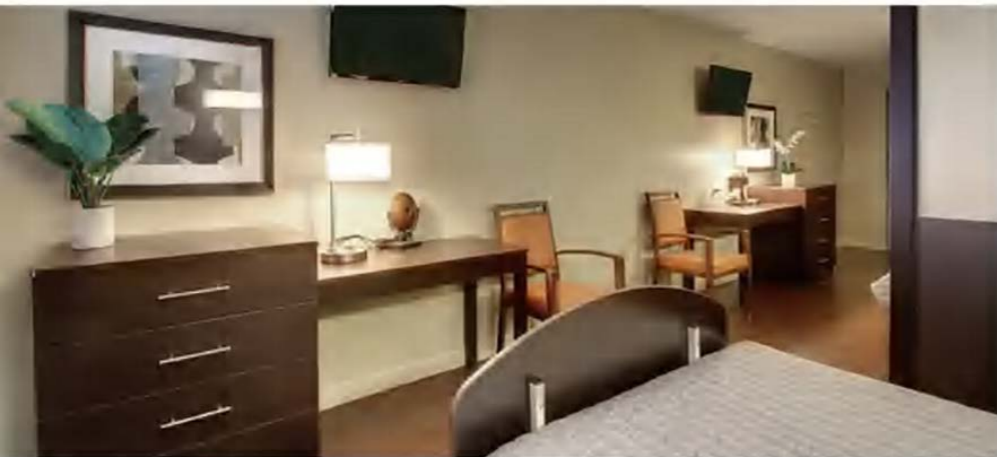

We have worked with hundreds of nursing homes and healthcare organizations around the world, and our extensive experience has given us a better understanding of senior living and healthcare chairs.

We hope that for every nursing home and healthcare organization, what we provide is not only a product, but also a set of complete solutions focusing on solving human needs.

Key components of the Lotus Senior Living & healthcare products

chair

Appropriate Design

Inspired by minimalism and incorporating our proven metal wood grain technology into our products, we find the perfect balance between beauty and functionality so that our products have a beautiful look without having to worry about elevating the difficulty of day-to-day maintenance, allowing them to blend in with a variety of modern decoration.

Comfort

Whether it's an elderly person sitting in a chair for a long time or a patient in pain, furniture should be optimized for comfort. Our medical furniture is ergonomically designed for comfort, with high resilience foam specially adapted to the medical environment.

Flexibility

We understand that nursing home and healthcare centers are not static, so we offer modular furniture options that maximize the value of their investment through flexibility and agility, and provide the ability to consistently deliver quality care to people.

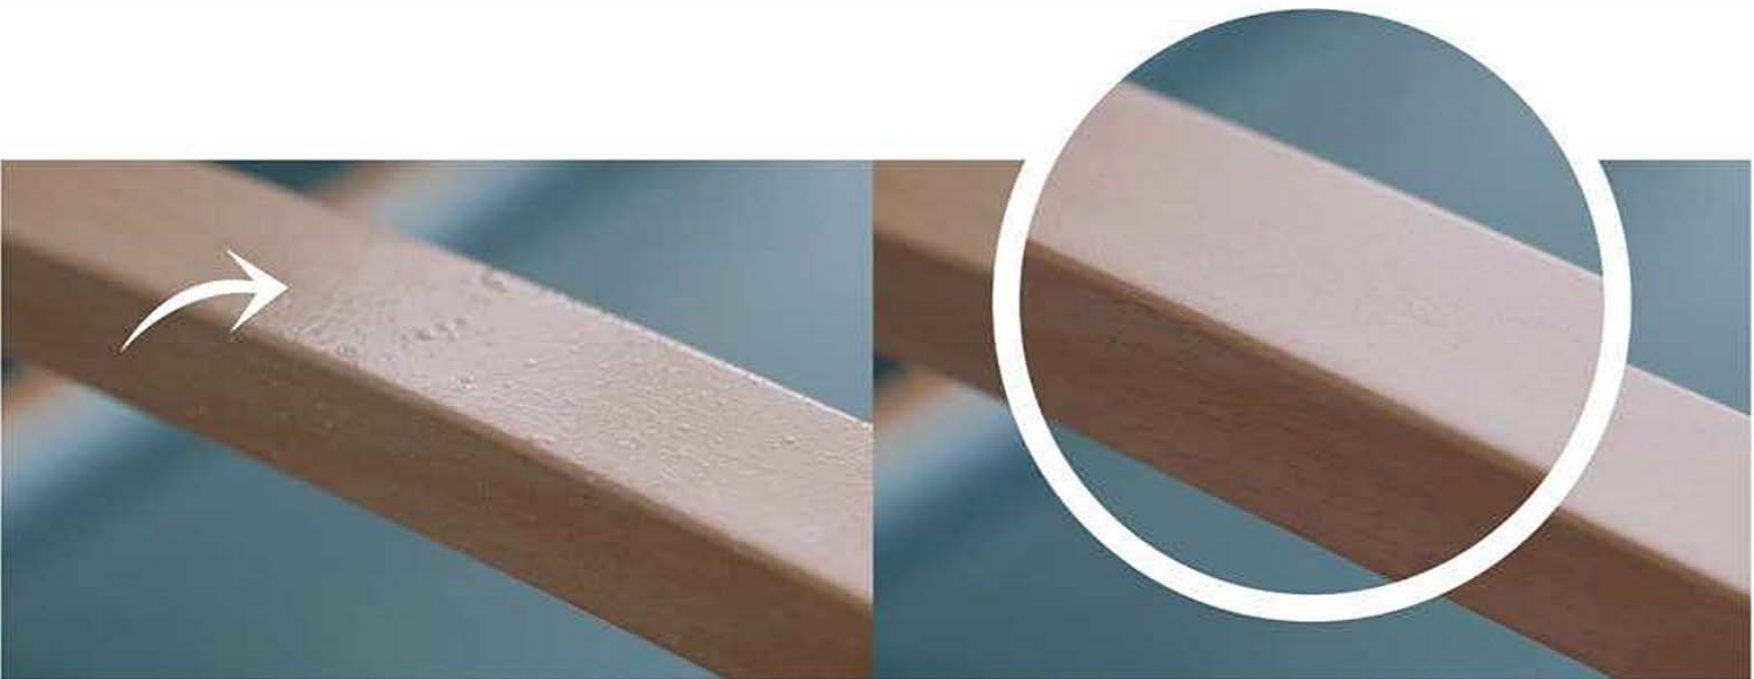

Durability

Furniture must withstand the high-frequency use in nursing home and healthcare environments. Our furniture is fully welded to bring stability to the structure, while the use of Tiger powder coating which is highly load-bearing and scratch-resistant, thus guaranteeing its long-lasting service life.

Cleanability and Infection Prevention

- Metal wood grain chair can be easily cleaned with **soap**, water and disinfected with products that **contain alcohol or bleach**.
- **No discolouration** on the frame even clean with undiluted disinfectant.
- Combining with high performance fabric/vinyl and cleaning gap, all lead to the prevention of viruses and bacteria, control the spread of infections.

Metal Wood Grain Chair

No discolouration on frame even clean with undiluted disinfectant.
Cleaning should never be a problem for the facilities!

Eco-Friendly Furniture

We are environmentally responsible in all that we do, including using environmentally certified raw materials, improving production efficiency, choosing reliable suppliers close to us, and minimizing waste of resources.

We are also committed to building our products to a high standard, reducing the frequency of product replacement for our guests, and all of our chairs come with a

Lifetime warranty.

Lift-Up **Cushion** Function,
Make Daily Cleaning Easier

Velcro Seat Cushion, Better Aligned With Regular Cleaning Programs

Cafe & Dining

In nursing homes and healthcare facilities, dining areas are very important to enable people to relax and fill their stomachs. Our chairs are ergonomically designed with a casters option to enhance mobility, comfort and ease of use.

By incorporating metal wood grain technology, the chairs have the attractive look of solid wood chairs, and because metal furniture does not leave holes or seams, with cleaning gaps, reduces the difficulty of maintenance for the staff.

Emerald 1691 Seating

CONCEPT

An easy-to-use dining chair program designed specifically for nursing homes and healthcare facilities. Built in a contemporary design, it's beautiful and easy to adapt to a variety of decoration. The backrest is equipped with a handle hole for quick movement in the venue. The innovative hollow backrest design gives the chair a solid wood feel while making daily cleaning easier and more convenient.

Resident Room

Resident room in nursing home and healthcare center is a place where the elderly or patient's family needs a quiet rest and they expect a sophisticated and homely environment. Yumeya resident room seating and sofa has warm and inviting design, together with neutral and calming colors, brings a sense of visual pleasure. At the same time, our chairs are made of fully welded metal, which remains stable and reliable after years of use and will not come loose. The ergonomic design and the enlarged and thickened high resilience foam can bring long-tasting comfort even people rest on them for a long time, they will not feel tired.

Comfort 1115 Seating

CONCEPT

Take the venue up a level with our luxurious collection of single sofas for upscale nursing home rooms. All of these products have a contemporary design that blends into a wide range of interior styles, making them an eye-catching presence. They are made of luxury materials and the cushions are all made of extra-thick, high-density cotton, which provides excellent rebound feedback for enhanced comfort.
